WHERE DADE AND HIS COMRADES DIED

Congressman Sparkman Has Introduc-
ed a Bill for a Park and a Monument
to Mark the Historic Spot.

Washington, Jan. 29.—Representa-
tive Sparkman of Florida, in the House
Wednesday afternoon, introduced a bill
looking to the establishment of a national
park on the spot where occurred, in 1835
what is known as the Dade massacre.
The massacre was the result of one of the
Indian wars, and Dade and his entire com-
mand were killed. The bill of Mr. Sparkman
provides also for the erection of a monu-
ment where the battle took place to com-
memorate the heroism of Dade and his
comrades.

The Florida delegation in Congress,
it is asserted, are opposed to the reaf-
firmation of the planks relating to sil-
ver, which were incorporated in the
democratic platforms of 1896 and 1900.
The delegation, it is said, are in favor
of making the tariff issue the principal
issue of the coming presidential cam-
paign, believing on that issue the party
can win.

People as a rule, coming from Flor-
ida, who have been seen, are opposed
to the reaffirmation of the planks of
the two last national campaigns. Flor-
ida people generally who have been
seen express the opinion that the party
can make a winning campaign on the
tariff issue, reduction in the expenses
of the government and honesty in the
administration of the affairs of the
Federal departments.

**WOMAN'S EPISCOPAL
AUXILIARY ASSOCIATION**
Address of the President, Mrs. F. C.
Gray, of Orlando

Read at the Meeting of the Association
in Ocala, Thursday, January 28.

Our annual meeting, bringing togeth-
er as it does, so many of the earnest,
zealous workers of the Woman's Aux-
iliary, presents a time when we should,
like the wise mariner, look to the oar-
ing of our machinery in order that dur-
ing the next year's run we may do the
greatest amount of work in the best
possible manner.

Our constitution, carefully and pray-
erfully prepared by the executive com-
mittee, and approved by the bishop, is
our chart of guidance, by which we are
to steer, if we would avoid, as far as
possible, the dangers of the way. Let
us study it together.

Art. II. states the object of this so-
ciety to be: First, By means of pray-
er and offerings to spread Christ's
kingdom in the world. Second, To
diffuse missionary intelligence. Third,
by a united, systematic effort, to in-
crease missionary activity among the
women of the jurisdiction, and to en-
courage the formation of branches
where there are none. Its members in-
clude every baptized woman in the ju-
risdiction.

The diocesan officers of the Southern
Florida Auxiliary are appointed by the
bishop, and are therefore sent by him
to do a certain specific work in a cer-
tain specific way.

The parochial officers are appointed
by the priest, or deacon in charge of the
parish or mission in which the
branch is located.

This places the Woman's Auxiliary
on a higher level than any other soci-
ety or guild organized by women among
themselves, the officers of the auxiliary
being commissioned by those in divine
authority in the church. It is a great
honor to be so called and chosen, and
it behooves us officers to be faithful in
the discharge of our duties. It lays a
great responsibility upon us, for we
must give account, not only to those
who directly commissioned us, but to
God himself.

It is a high and holy calling to aid
in the evangelization of the world, to
help on the coming of the Lord and Sa-
vior, Jesus Christ, but it requires self-
denial, faithful work and constant
prayer. Do we possess this spirit, and
love Him enough to exert ourselves to
do his work, to make time for it, to
deny ourselves some earthly occupation
or pleasure in order to do it?

Everyone cannot do a great work for
Christ, but there is not one woman who
cannot do something for the cause, if
she really loves it.

In Art. VII. of the constitution we
find the duties of parochial officers de-
fined. First, The directress shall pre-
side in all parochial meetings and keep
an oversight of the work in her branch.
That is to be responsible for it; see
that the constitutional plan is carried
out; see that competent collectors are
appointed, and that they are faithful;
see that the secretary keeps the min-
utes of the meetings and corresponds
with the diocesan secretary frequ-
ently; see that the treasurer keeps her
accounts accurately and regularly, and
sends the monthly collections promptly
to the diocesan treasurer; look out for
the new-comers, and send the collector
to them. In short, keep the whole

THE SANITARY SERVICES OF SILVER

Perhaps That is the Reason Why a
Great Democratic Leader Stands so
Strenuously by the Argentiferous
Metal.

To properly dress a wound is not an
easy thing, and the process is compli-
cated and may be costly when the
dressing has to be renewed every day.
There are none of these objections,
says a Public Opinion translation from
a French paper, however, in the meth-
od of Dr. Reboul, for whether the
dressing is to be applied to a recent cut
or to an ulcerated tumor, a sheet of sil-
ver or silver-leaf is all that is neces-
sary. The silver is simply placed on
the wound or ulcer, and as it sticks
closely to the surface a little cotton
soaked in colloid is sufficient to keep
it in place. The effects of this sheet of
silver are very remarkable. Where the
wound is a recent one and not contam-
inated with microbes, the wound quick-
ly heals under the influence of the sil-
ver, without inflammation or suppu-
ration and without presenting the slight-
est bad symptom. Conditions are just
as favorable in cases of ulcer, chronic
ulcer of the leg, for instance, in which
case the suppuration decreases little by
little, while the ulcerated surface gradu-
ally becomes covered with healthy
skin, which soon produces a good cicat-
rization in place of the ulcer. This per-
fect cicatrization has even been obtain-
ed in many cases of ulcerated cancer
of the skin. What is this property that
silver possesses? It is due to the great
antiseptic power of this metal, which
is proved by the following experiment:
Several years ago a physician of Ly-
ons, Dr. Rollin, decided to cultivate
microbes in a bouillon which he had
placed in a silver vessel. To his great
surprise he found that in place of mul-
tiplying in this nutritive liquid the mi-
crobes perished, and at the end of a few
hours completely disappeared, which
fact was all the more remarkable as the
same microbes multiplied ad infinitum
when placed in another vessel. Pursu-
ing his investigations, Dr. Rollin ana-
lyzed the bouillon which was contained
in the silver vessel, and found therein
a very small trace of silver, which in-
finitely small quantity had rendered
antiseptic a liter of bouillon.

NIGHT WAS HER TERROR

"I would cough nearly all night long,"
writes Mrs. Chas. Applegate of Alex-
andria, Ind., "and could hardly get any
sleep. I had consumption so bad that
if I walked a block I would cough
frantically and spit blood, but, when
all other medicines failed, three \$1
bottles of Dr. King's New Discovery
wholly cured me and I gained 55
pounds." It is absolutely guaranteed
to cure Coughs, Colds, La Grippe,
Bronchitis and all Throat and Lung
troubles. Price 50c. and \$1. Trial bot-
tles free at the Anti-Monopoly Drug-
store.

GERMANY'S FRONTIER WAR

Maybe She Won't be so Ready to Criti-
cize Uncle Sam and Britannia
When She Gets Through

Berlin, Jan. 29.—Soldiers are being
rushed to Southwest Africa with the
double object of protecting German
colonists from torture and death and to
punish hostile tribesmen who have em-
ployed the most barbarous methods in
recent massacres of white settlers.

Reports which have reached the col-
onial office here are to the effect that
bushmen and rebels in German South-
western Africa have dismembered and
mutilated the dead in the most atro-
cious manner, sparing neither women
nor children, and that in some in-
stances, prisoners, after having been
tortured, have been burnt alive.

A total of 2000 troops are in the so-
litudes of the route, but such a force is
considered inadequate to establish and
preserve order and conduct a punitive
expedition.
